DESCRIPTION

Dayton Superior A4H Hex Head Snap Ties are manufactured with hot forged integral 1/2" hex shaped heads.

APPLICATION

The hex head allows short-end snap ties to be broken back with the formwork still in place.

FEATURES

- Safe Working Load (SWL) 2,250 lbs
- SWL provides a factor of safety of approximately 2 to 1
- Hex head measures 1/2" across flats
- Standard A4H uses 1" x 1" A2 Plastic Cones to provide a nominal 1" breakback
- Other size cones are available on special order

INSTALLATION

1. Place a 1/2" six-point socket and ratchet over the head of the tie (A31 Hex Head Snap Tie Socket).
2. Push the bracket eccentric away from the tie head.
3. Standing in front of the tie, hold the socket on the hex head with one hand and turn the ratchet with the other. A 1/4 to 1/2 turn of the ratchet normally breaks the tie end.
